IBM

C2040-915 - System Administration for IBM Informix Dynamic Server V9

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 000-915 exam in first attempt and also get high scores to acquire IBM certification.

If you use OfficialCerts 000-915 Certification questions and answers, you will experience actual 000-915 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-915 exam. Every point from pass4sure 000-915 PDF, 000-915 review will help you take IBM 000-915 exam much easier and become IBM certified.

Here's what you can expect from the OfficialCerts IBM 000-915 course:

- * Up-to-Date IBM 000-915 questions as experienced in the real exam.*
- * 100% correct IBM 000-915 answers you simply can't find in other 000-915 courses.*
- * All of our tests are easy to download. Your file will be saved as a 000-915 PDF.*
- * IBM 000-915 brain dump free content featuring the real 000-915 test questions.*

IBM 000-915 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-915 exam training are an absolute favorite in the industry.

You will pass IBM 000-915 certification test and career opportunities will be open for you.

Question: 1

In preparing to install IBM Informix Dynamic Server product, which of the following is the best resource to find suggested beginning values for kernel parameter settings?

- A. Informix Release Notes
- B. Informix reference manuals
- C. Operating System documentation
- D. Administrator's Guide for IBM Informix Dynamic Server

Answer: A

Question: 2

When configuring the database server for Java support the JVPHOME configuration parameter should be set to which of the following locations?

- A. The Java Development Kit files
- B. The Krakatoa installation directory
- C. The Informix database installation files
- D. The class files that will be compiled for external java routine.

Answer: B

Question: 3

Which of the following shell commands will start database server and initialize rootbs?

- A. oninit
- B. ipcs-m
- C. onmode-l
- D. onstat-l
- E. oninit-ivvy

Answer: E

Question: 4

The System Administrator needs to run applications on the same hhost machine as the database server. Communications between the client and server must be as fast as possible. Which of the following nettype entries is the best choice for the sqlhosts file?

- A. onipchm
- B. onipcstr
- C. ontiitcp
- D. onsoctcp

Answer: A

Question: 5

In the sqlhosts file, which column number is used to configure the KEEPALIVE option?

- A. 1
- B. 2
- C. 3
- D. 4
- E. 5

Answer: C

Question: 6

The System Administrator has chosen to create an sqlhosts file in a directory that is not the default location. How can the environment be configured to use this file?

- A. Set the SQLHOSTS environment variable to the name of the sqlhosts file.
- B. Set the SQLHOSTS environment variable to the path and name of the sqlhosts file.
- C. Set the INFORMIXSQLHOSTS environment variable to the path and name of the sqlhosts file
- D. Set the INFORMIXSQLHOSTS environment variable to the path where the sqlhosts file is located.

Answer: C

Question: 7

To successfully install the IBM Informix Dynamic Server product, which of the following environment variable must be set?

- A. INFORMIXDIR, PATH
- B. INFORMIXDIR, INFORMIXSQLHOSTS
- C. INFORMIXDIR, INFORMIXSERVER, PATH
- D. INFORMIXDIR, INFORMIXSERVER, ONCONFIG

Answer: A

Question: 8

Where must the database server configuration file reside?

- A. /etc
- B. \$ONCONFIG
- C. \$INFORMIXDIR/etc
- D. \$INFORMIXDIR/config

Answer: A

Question: 9

The System Administrator wants to change the root chunk size for a newly created instance, however no database have been created yet. The ROOTSIZE configuration parameter has been changed to the new value.

Assuming sufficient disk space is available, what, if anything, must be done to implement the size change and bring up the instance?

- A. Stop and restart the database server
- B. Add a new chunk with the correct size
- C. Completely reinitialize the database server
- D. Do nothing; the changes will take effect immediately

Answer: C

Question: 10

The System Administrator is configuring the NETTYPE parameter to set the number of poll threads, for network connections. The administrator would like to allow 100 total users, 2 poll threads, and run the poll threads on network virtual processors.

Which of the following NETTYPE values should be used?

- A. soctcp, 50,2, CPU
-

- B. soctcp, 2,50,NET
- C. ipcshm, 2,50, NET
- D. soctcp, 2,100, NET

Answer: B

Question: 11

The sqlhosts file is on a UNIX machine that supports the Transport Layer Interface and uses the TCP/IP protocol. Which of the following NETTYPE entries should be specified in the sqlhosts file?

- A. ontlitcp
- B. ontlispx
- C. onsocspix
- D. onsoctcp

Answer: A

Question: 12

Files need to be configured to establish network connections on a UNIX hosts system named "texas1" with an IP address of 192.168.15.100.

The sqlhosts file is as follows:

Use ontlitcp texas1 sqlexec

Which of the following entries is required in the /etc/hosts file?

- A. 192.168.15.100 usa
- B. 192.168.15.100 texas 1
- C. texas 1 192.168.15.100
- D. texas 1 192.168.15.100 usa

Answer: B

Question: 13

Which of the following configuration parameters specifies the maximum amount of time a transaction will wait on a lock in a distributed database environment?

- A. DRTIMEOUT
- B. TXTIMEOUT
- C. BLOCK_TIMEOUT
- D. DEADLOCK_TIMEOUT

Answer: D

Question: 14

Company.com is trying to determine what is the best connection type they should use for their client applications to connect to the Informix database server. The company will have 100 clients connecting from different platforms in various locations. The connections must be able to support multithreaded client connections, multiple connections to the database server, and the connections must be secure.

Which of the following connection types would be the most effective?

- A. Network connection
 - B. Multiplexed connection
 - C. Shared memory connection
 - D. Streamed pipes or named pipes
