IBM

IBM Storage Sales

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 000-960 exam in first attempt and also get high scores to acquire IBM certification.

If you use OfficialCerts 000-960 Certification questions and answers, you will experience actual 000-960 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-960 exam. Every point from pass4sure 000-960 PDF, 000-960 review will help you take IBM 000-960 exam much easier and become IBM certified.

Here's what you can expect from the OfficialCerts IBM 000-960 course:

- * Up-to-Date IBM 000-960 questions as experienced in the real exam.*
- * 100% correct IBM 000-960 answers you simply can't find in other 000-960 courses.*
- * All of our tests are easy to download. Your file will be saved as a 000-960 PDF.*
- * IBM 000-960 brain dump free content featuring the real 000-960 test questions.*

IBM 000-960 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-960 exam training are an absolute favorite in the industry.

You will pass IBM 000-960 certification test and career opportunities will be open for you.

Question: 1

Which type of virtualization is provided by the SAN Volume Controller (SVC)?

- A. In band
- B. Out of band
- C. Host based Software virtualization
- D. Hardware virtualization within the storage subsystem controller

Answer: A

Question: 2

A customer is using LAN-based Tivoli Storage Manager for backups and plans to increase the number of servers in the data center to be backed up. Which one of the following options should be suggested if no new disk space can be purchased?

- A. Add an additional TSM server.
- B. Add an IBM SAN Volume Controller.
- C. Implement GPFS to increase the disk pool.
- D. Add Virtual Tape Library and implement LAN-free backups.

Answer: C

Question: 3

The initial meeting with a large customer's IT team made it clear that they are experiencing storage performance problems. For the next meeting, which tool should be used to help evaluate their storage performance?

- A. IBM Disk Magic for Windows
- B. IBM Tivoli Storage Manager
- C. IBM Capacity Magic for Windows
- D. IBM TotalStorage Productivity Center

Answer: D

Question: 4

Which of the following IBM products would be recommended to compete with the EMC CX3-80?

- A. IBM Systems Storage DS4200
- B. IBM Systems Storage DS4700
- C. IBM Systems Storage DS5100
- D. IBM Systems Storage DS8100

Answer: C

Question: 5

A customer has a mainframe with 32 IBM TotalStorage Tape Drives (3490) and six IBM TotalStorage Enterprise Tape Drives (3590). The customer is looking for a tape consolidation solution to reduce floor space, increase cartridge utilization, and improve tape mount performance. Which of the following is the best solution for their needs?

- A. IBM System Storage TS7700 Virtual Tape Server
- B. IBM System Storage SAN Volume Controller (SVC)
- C. IBM System Storage TS3500 UltraScalable Tape Library
- D. IBM TotalStorage 3590 Enterprise Tape Drive with ACF

Answer: A

Question: 6

Which of the following IBM publications provide best practice and product information, configuration, and suggestions for storage products?

- A. Redbooks
- B. White Papers
- C. Product Literature
- D. Solution Assurance Guides

Answer: A

Question: 7

What key strength is included in Total Storage Productivity Center Standard Edition over EMC ControlCenter?

- A. Offering for the SMB market
- B. More storage management features
- C. Integration with systems management products
- D. Total Storage Productivity Center for Replication

Answer: B

Question: 8

A customer needs to provide a centrally managed, common pool of storage for its Microsoft Windows servers located at three remote offices. Due to budget constraints, existing IP protocol needs to be utilized at both the headquarters and the remote locations. Which device best satisfies these requirements?

- A. IBM System Storage DS3400
- B. IBM System Storage N3700
- C. IBM System Storage DS4800
- D. IBM System Storage SAN Volume Controller

Answer: B

Question: 9

Which of the following functions does Hitachi Data Systems claim about the HDS USP V (Universal Storage Platform)?

- A. Scalable cache up to 32 GB with non-definable usage
- B. Internal bandwidth equates to increased storage performance
- C. Performance increases as more devices are added to FC-AL loop
- D. Priority I/O queuing feature is supported on both mainframes and open systems

Answer: B

Question: 10

A customer has an On-Line Transaction Processing (OLTP) application that is currently running on an IBM System p server. The OLTP database resides on an IBM System Storage DS8000. The customer wants to test multiple OLTP application changes without impacting the current application's database. Which of the following advanced functions would best support the customer's requirement?

- A. FlashCopy
- B. Metro Mirror
- C. Global Mirror
- D. FlashCopy Space Efficiency (SE)

Answer: D

Question: 11

A multiple vendor storage environment is being refreshed. What would be one of the potential customer benefits when installing a SAN Volume Controller?

- A. The potential to manage the components within the SAN.
- B. The ability to share data between different server types.
- C. The ability to capture and analyze storage subsystem performance data.
- D. The potential to migrate data between different storage subsystems with minimum disruption.

Answer: D

Question: 12

An IBM System z server customer with two locations 400 kilometers apart, is constantly struggling to balance workload across the two locations. Which of the following IBM System Storage DS8000 capabilities most cost effectively meets the customer's need without impacting performance?

- A. FlashCopy
- B. Metro Mirror
- C. Global Mirror
- D. Parallel Access Volumes

Answer: C

Question: 13

A company currently has Microsoft Windows and UNIX servers running various applications. They are looking for a cost effective 10 TB storage solution that includes a mirrored site 10 km to meet their requirements of at least a tier 6 disaster recovery plan. Which of the following solutions should be recommended?

- A. Two IBM SAN Volume Controller clusters running FlashCopy and Metro Mirror
- B. Two IBM System Storage DS4700 storage servers running FlashCopy and Volume Copy
- C. Two IBM System Storage DS8300 storage servers running FlashCopy and Metro Mirror
- D. Two IBM System Storage DS5100 storage servers running FlashCopy and Enhanced Remote Mirror

Answer: D

Question: 14

Which of the following software applications provides non-erasable and non-rewriteable data protection on the IBM System Storage N3700?

- A. SnapLock
- B. SnapShot
- C. SnapVault
- D. SnapMirror

Answer: A

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
