

000-974

IBM

Power Systems Technical Support for i

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 000-974 exam in first attempt and also get high scores to acquire IBM certification.

If you use OfficialCerts 000-974 Certification questions and answers, you will experience actual 000-974 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-974 exam. Every point from pass4sure 000-974 PDF, 000-974 review will help you take IBM 000-974 exam much easier and become IBM certified.

Here's what you can expect from the OfficialCerts IBM 000-974 course:

- * Up-to-Date IBM 000-974 questions as experienced in the real exam.*
- * 100% correct IBM 000-974 answers you simply can't find in other 000-974 courses.*
- * All of our tests are easy to download. Your file will be saved as a 000-974 PDF.*
- * IBM 000-974 brain dump free content featuring the real 000-974 test questions.*

IBM 000-974 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-974 exam training are an absolute favorite in the industry.

You will pass IBM 000-974 certification test and career opportunities will be open for you.

Question: 1

A customer has a small application library which requires encryption. Management requires the solution to have minimal impact. Which of the following addresses the customer's requirements?

- A. V6R1 Encrypted ASP feature
- B. V6R1 Backup Encryption Feature with BRMS Advanced Feature.
- C. LTO-4 tape drives using Application Mode Encryption and BRMS.
- D. LTO-4 tape drives using Library Mode Encryption using EKM on IBM i.

Answer: B

Question: 2

What is the maximum number of LUNs supported by the 4GB dual port fibre adapters FC #5749 and FC #5774?

- A. 32
- B. 64
- C. 128
- D. 256

Answer: C

Question: 3

Which of the following correctly describes IBM's recommendation for the highest level of disk protection available for IBM i on a JS12 blade in a BladeCenter S (BCS)?

- A. BCS managed RAID-3
- B. VIOS managed disk mirroring
- C. IBM i managed disk mirroring
- D. BCS managed mirroring (RAID-10)

Answer: C

Question: 4

Which of the following is the most practical method of doing a partial save of an i5/OS partition on a POWER Blade?

- A. i5/OS save to virtual optical IMGCLG, FTP images to VIOS or another i5/OS
- B. Replicate VIOS LUNs assigned to i5/OS; bring up separate i5/OS partition from copy
- C. FlashCopy (full copy) VIOS LUNs assigned to i5/OS; bring up separate i5/OS partition from copy
- D. i5/OS save to virtual optical in VIOS; FlashCopy VIOS virtual media LUNs and attach to 2nd VIOS

Answer: A

Question: 5

Which of the following SAN storage models are supported by VIOS in an i5/OS environment?

- A. DS4700, DS4800, DS8100, and DS8300
- B. DS3400, DS4100, DS4500, and DS8100
- C. DS4700, DS4800, DS6800, and DS8100
- D. DS3400, DS4500, DS6800, and DS8300

Answer: A

Question: 6

A customer with a Power 520 M25 system and single processor would like to activate a second processor for another IBM i LPAR which will run Domino only. Which of the following will allow them to purchase IBM i at a reduced price?

- A. i5/OS External Access
- B. i5/OS Application Server
- C. i5/OS Domino Application Server
- D. i5/OS Unlimited Collaboration Users

Answer: D

Question: 7

A customer is purchasing a new POWER6 520 M25 with four IBM I partitions. The customer wants to have one Ethernet port in each partition. What is the least expensive way to satisfy this request?

- A. Install one FC #2849 Ethernet card in each partition
- B. Install one FC #5706 dual port Ethernet card in each partition.
- C. Install one FC #5624 four port IVE and allocate one port to each partition.
- D. Install two FC #5623 two port IVEs and allocate one port to each partition.

Answer: C

Question: 8

Which of the following provides CPU sizing when adding Domino to an existing IBM i partition?

- A. iDoctor
- B. Service Agent
- C. Patrol Predict
- D. Workload Estimator

Answer: D

Question: 9

A customer is installing 3 iSCSI-attached System x servers. What is the minimum number of IP addresses necessary to deploy the iSCSI LAN segment, before considering user connectivity?

- A. 11 (3 for RSA-II connections, 4 for HBA connections and 4 for point to point connections)
- B. 12 (4 for RSA-II connections, 4 for HBA connections and 4 for point to point connections)
- C. 16 (4 for RSA-II connections, 6 for HBA connections and 6 for point to point connections)
- D. 18 (4 for RSA-II connections, 8 for HBA connections and 6 for point to point connections)

Answer: D

Question: 10

A customer has a 525 with an FC #0595 PCI-X Expansion tower with two partitions: Test and Development. The Test partition is contained in the FC #0595 and the development partition is completely contained in the 525 CEC. They recently installed a 570 and would like to move the Test partition from the 525 to the 570.

Which of the following is the most efficient way to move the Test partition and associated hardware to the 570?

- A. Configure the partition on the HMC for the 570 and attach the FC #0595.

- B. Attach the FC #0595 to the 570 and configure the partition with the HMC.
- C. Attach the FC #0595, configure the partition on the HMC for the 570, slip install SLIC on the new partition.
- D. Configure the partition on the HMC for the 570, attach the FC #0595, and slip install SLIC on the new partition.

Answer: B

Question: 11

When configuring SAN attached disk for a Power 550 M50 what information is required to connect the LUNs to the 550?

- A. The WWPN (world wide port name)
- B. The feature code for the fibre adapter and its location in the rack
- C. The feature code for the fibre adapter, its location in the rack and the rack number
- D. The feature code for the fibre adapter, its location in the rack, the rack number and the WWPN (world wide port name)

Answer: A

Question: 12

What is the maximum number of concurrent iSCSI Host Bus Adapter (HBA) connections that one Network Server Description (NSWD) may use?

- A. 1
- B. 2
- C. 4
- D. 8

Answer: C

Question: 13

Which of the following was introduced at POWER6?

- A. Uncapped partitions
- B. Shared memory pools
- C. Shared processor pools
- D. Scheduled resource movement

Answer: C

Question: 14

A customer plans to run multiple IBM i partitions on an IBM Blade Server. Which product must be used to set up and manage the partitions?

- A. Management Central
- B. Advanced Partition Manager
- C. Hardware Management Console
- D. Integrated Virtualization Manager

Answer: D

Question: 15

When creating storage spaces for a hosted Linux partition, what should be specified as the FORMAT parameter?

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
