EMC Technology Foundations - Storage Management

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your E20-090 exam in first attempt and also get high scores to acquire EMC certification.

If you use OfficialCerts E20-090 Certification questions and answers, you will experience actual E20-090 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our EMC exam prep covers over 95% of the questions and answers that may be appeared in your E20-090 exam. Every point from pass4sure E20-090 PDF, E20-090 review will help you take EMC E20-090 exam much easier and become EMC certified.

Here's what you can expect from the OfficialCerts EMC E20-090 course:

- * Up-to-Date EMC E20-090 questions as experienced in the real exam.*
- * 100% correct EMC E20-090 answers you simply can't find in other E20-090 courses.*
- * All of our tests are easy to download. Your file will be saved as a E20-090 PDF.*
- * EMC E20-090 brain dump free content featuring the real E20-090 test questions.*

EMC E20-090 certification exam is of core importance both in your Professional life and EMC certification path. With EMC certification you can get a good job easily in the market and get on your path for success. Professionals who passed EMC E20-090 exam training are an absolute favorite in the industry. You will pass EMC E20-090 certification test and career opportunities will be open for you.

- A. ESCON and Fibre Channel
- B. ESCON and FICON
- C. Fibre Channel and FICON
- D. Fibre Channel and SCSI

Answer: B

Question: 6

How is free space maintained in the CLARiiON write cache?

- A. Low watermark flushing is suspended during write operations

Exam Name:	EMC Technology Foundations - Storage Management		
Exam Type	EMC	Exam Code:	E20-090
Doc. Type:	Q & A with Explanations	Total Questions:	342

- B. Cache is flushed to the drives during I/O bursts and only the least-recently used pages are flushed
- C. Cache is automatically flushed every 90 minutes
- D. Low watermark flushing is suspended during read operations

Answer: B

Question: 7

What is a characteristic of zoning in a SAN environment?

- A. Fabric independent service
- B. Allows devices within the fabric to be logically segmented
- C. LUN access control in a shared environment
- D. Allows switches to aggregate ISLs to increase bandwidth

Answer: B

Question: 8

Which Java based interface manages standalone MDS-Series switches?

- A. Fabric Manager
- B. Web Tools
- C. EWS
- D. DS-M Connect

Answer: A

Question: 9

What are the two [2] available configuration options for the NS600 Data Movers?

- A. One Data Mover is primary, and one acts as a standby
- B. One Data Mover acts as a standby for the other three (3) Data Movers
- C. All four (4) Data Movers are primary
- D. Both Data Movers are primary

Answer: A, D

Question: 10

How is data handled by the TimeFinder/Mirror Establish operation?

- A. Copied from the BCV device to Standard device
- B. Copied from the Standard device to the BCV device
- C. Restored from the BCV device to the Standard device
- D. Copied from the VDEV device to the BCV device

Answer: B

Question: 11

Which statement describes TimeFinder/Mirror?

- A. Replica can be made available to the backup host immediately after the activation of the replication session
- B. Replica does not require identical storage capacity as the Source device
- C. Replica requires a fraction of the storage capacity as the Source device
- D. Replica requires an initial full synchronization before the data on the replica is available

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
